C. WESLEY LYONS, MAYOR

Sixty-first Annual Report
OF THE
CITY OF ROCHESTER
NEW HAMPSHIRE

For the Year Ending December 31st
Nineteen Hundred and Fifty-two

INAUGURAL ADDRESS

by C. Wesley Lyons, Mayor

Gentlemen of the Council:

The present struggle for the control of men's minds, which goes on throughout the world at this time, employs two great and powerful weapons: mass psychology and powerful means of communication. The methodical repetition of falsehood and deceit seeks to destroy not only the basic elements of truth and integrity but also contempt for all who would defend themselves from such tyranny. The resulting tension and uncertainty concerning international policies make government at the local level a serious challenge to those who would preserve individual freedom. Our American heritage must be preserved at the community level with a spirit of cooperation, sacrifice, and strong determination to combat inflation and corruption. It has been said that a society of self-governing men is more powerful, more enduring, more creative than any other society, however disciplined and centralized.

As you undertake your duties as members of the City Government to provide for the welfare, security and progress of the people of the City of Rochester, New Hampshire, in this new year that lies ahead, you should find a challenge and much inspiration in the confidence that your fellow citizens have placed in you.

In his speech at Faneuil Hall in Boston, Daniel Webster said: "Men hang out signs indicative of their respective trades: shoemakers hang out a gigantic shoe, a jeweler a monster watch, and a dentist a gold tooth. But in the mountains of New Hampshire, Almighty God has hung out a sign to show that here he makes men." It is our duty as city officials to maintain this heritage, as advertised by continuing to provide the facilities necessary to make Rochester not only a progressive city but a community in which one wants to live.

The Charter of our city has been amended during the years so that, as of today, we have only four departments. The Fire and Police are departments for the protection of our citizens and those who are guests in this community; our Public Works for the maintenance of our highways, sewers, and the operation of our Water Division; and our Department of Education.

Our Fire and Police Departments must be progressive and alert, and you as Gentlemen of the Council must from time to time continue to provide them with the facilities which are necessary to keep them abreast of the times and give the fullest protection to our citizens.

Our Public Works Department has also many responsibilities: the maintenance of highways for adequate and safe transportation, and our collection of refuse and control of the sanitary fill. One of our most essential divisions of the Public Works is the maintenance of our water and sewer systems. The above

mentioned should receive every consideration and assure the health of our citizens and the cleanliness of our city, for which we are noted. Let us continue! Lastly, in our Public Works Department is our Shade Trees, Parks and Commons, and may I again emphasize the importance of this sub-division. We must keep our parks and commons beautiful! They not only are appreciated by those of us who live here, but make a favorable impression upon the many thousands who pass through this community during all seasons of the year. I trust that the Committee on Public Works may give some consideration to the planting of new trees, which we have neglected for a long while. And last but not least in this department, we have our supervised playgrounds. In the past, you have heard me state many times that the youth of our community cannot be measured by the material things of life, and because of them we make every effort to maintain a city in which you are proud to raise and educate your children, and how closely this works into our educational system. During the last few years there have been definite, progressive steps in the public playgrounds of the City of Rochester. We have not only received fullest cooperation from the Parent-Teacher's Associations of the various areas, but have been so fortunate as to have had the assistance of a director made possible through the Community Activities. I personally regret very much the fact that Jack Penney could not have continued here. However, I am thankful that he has an advancement, and I am most positive that our new director, Mr. Fred Merrill, will be equally cooperative.

As our supervised playgrounds and our educational system interlock, I will continue. The schools we want for our children will teach them the things men have learned about the world and mankind, and the new ways of living and working together in a fast-moving, complex and dangerous world. Our children must be prepared to use new ideas and mechanical devices, new behavior patterns, and to face new and controversial issues. Though guided by the mistakes of the past and "guardians of the permanent good," they must also be independent and creative. An adequate school program includes far more than "book learning." It helps children to become good citizens, physically fit, and intelligent consumers as well as producers, and to realize how they can help build a better community. We want our children's schools to be wholesome places for learning and growth. At all times we want their environment to be safe, comfortable, clean and attractive. We want their teachers to be competent and cultured persons who understand children. The public demands much of our public schools and supervised playgrounds at the present time, and they may be well justified in their demands.

In the past, many of our citizens have conveyed perhaps to all of us their dissatisfaction in the operation of our traffic lighting system. I would not only be personally gratified, but I know that many of our citizens would feel that they were having some consideration if we again attempted to make such changes as they deemed necessary. I urge that the Traffic Committee make a thorough study of the existing conditions and

bring them before the Gentlemen of the Council as a whole for their consideration.

I hesitate not to call your attention to the Civil Defense of our city. We are fortunate in having a Civil Defense Director and a Civil Defense Council, composed of representatives of the military organizations of the City of Rochester. These men are devoting unlimited time and effort in an organization which is definitely essential for the safety of our citizens. I am pleased with this opportunity to publicly acknowledge and to thank the members of the 1951 Council and the Civil Defense organization for their mutual cooperation.

In 1951, with the assistance of the Gentlemen of the Council, in spite of the loss of some taxable property, we maintained a tax rate which was below the average in Strafford County, and Strafford County, may I add, was one of the four lowest in our State. This could not have been done without the assistance of the Gentlemen of the Council. I realize it would be difficult to measure your personal satisfaction and gratification in your accomplishment. I appreciate that it is your desire that we may make every effort to continue to do this in the future and still maintain a reasonably low valuation. In looking to the future, it seems that this is more important now than ever before.

Before this Council Body meets again, perhaps a month will have gone by, so at this time, as a member of your Finance Committee, I ask that the head of every department immediately build his budget for 1952.

In this communication to you, you will note that I have not dwelt upon the needs of our various departments or how they should be operated. The majority of you have served as members of the City Council. You are well aware of the demands of the citizens of Rochester and are also familiar as to the way in which these various departments should operate. We are convinced of the fact that our present water system must be developed to meet the ever-increasing demands. I believe that you are confident that steps should be taken to accomplish this. Our new members have been active in the affairs of this community for many years, and have shown much interest in the affairs of Rochester. We have a further obligation to our boys serving in Korea, who are a portion of the 350,000 facing a ruthless enemy in dugouts on those frozen hills, with thousands of their fellows bearing hardships in Communist prison camps.

In looking back over the year in appraisal of the many things that you have accomplished, to be thankful for, and in summarizing a few of them, I will call your attention to your Municipal Parking Lot, which has been a definite asset to Rochester and to our merchants who have openly expressed their appreciation. Your Municipal Garage has received many favorable comments. Although your Police Garage and Comfort Station is not as yet completed but well under way, it will definitely not only meet the needs of our police equipment but will be a public service to our community.

In the past years that I have been privileged to work with you and with the various organizations in our community, you

have undoubtedly heard me many times state how fortunate we are to live in the type of city that is ours. As I look back over the years, it would be impossible to state the cooperation and assistance that these various organizations have given to make Rochester what it is: a city where we all work together regardless of race or creed. Our citizens have maintained a Chamber of Commerce, essential to every city, and they have contributed wholeheartedly to our Community Chest and Red Cross campaigns.

I personally feel that you have made a progressive step in the past two years by becoming affiliated with the Lakes Region Association and contributing to it. How fortunate it is that we realize that we cannot confine our thoughts to one particular area. Why is there cooperation and progress in Rochester? Why do its people work together and its various organizations function successfully? It is because we have men who are willing to devote their time and their efforts without compensation to conducting the affairs of their municipality. If this were not so, Rochester would not be looked to, perhaps I may even say with a little envy, for the things that we have and we together enjoy. Let you make every effort not only in the year of 1952 but in the many years ahead, that Rochester may continue to be progressive, on the alert and known as "The City of Friendly People." Citizenship is a privilege and not a burden, and your position as members of our City Government is an honor that you should assume as free Americans.

In December, the first issue of "New Hampshire Profiles" was introduced—a publication that will be of outstanding interest not only to the residents of New Hampshire but to those who love to come here and enjoy its recreational advantages. In this magazine was a full page picture of our State Trade Mark, the Great Stone Face, which is a symbol of what is best in our hearts and minds. Below this photograph we have that poem, "A New Hampshire Profile" by Frances Ann Johnson, a native lecturer and a lover of New Hampshire; and in closing, with your permission, I will give this poem which I trust will be an inspiration to us all.

Within a small, tree-shadowed space
I can look up and see a Face
Ice-chiseled long ago.
If I desert that favored sphere,
The noble features disappear
And only ledges show.

It all depends on where I stand
If shapeless rock or something grand
Is visible to me.
And what I choose to keep in view
Becomes a part of all I do
And all I hope to be.

I'll have to choose with equal care
The stand I take in life, for there
Within my little place
I'll either see just rock and sky
And never know or wonder why—
Or I'll behold a Face!

To effect this change in accounting method, it was necessary to include \$25,046.44 in commercial sales, and \$1,087.63 in industrial sales (the December 1950 meter readings credited to sales in January 1951) or a total of \$26,134.07, which does not represent current year sales.

REPORT OF THE DEPARTMENT OF PUBLIC WORKS

The Department of Public Works, as organized under the General Ordinances and Amendments adopted in January, 1950, is charged with the responsibility for the construction and maintenance of streets, water supply and distribution system, bridges, sidewalks, storm and sanitary sewers, maintenance of public parks and lands and the collection and disposal of ashes and rubbish.

Employees: 50.

To the Honorable Mayor and City Council, Rochester, N. H.:

An unusually severe winter during which breakdowns of equipment added to the heavy snow removal expense, accounted in a large measure for the considerable increase in the expense of the Highway Division over the expenditures of 1951. This, coupled with the increased cost of operating the dump for the first full year as a sanitary fill, a new budget item of \$5,000.00 for equipment, and an increase of approximately 10% in the wages of all employees accounted for the greater part of the balance of the increased cost of operating the Highway Division in 1952.

It was not until after the middle of March that a start could be made on cleaning streets of the heavy accumulation of winter sand and at about the same time it was possible to begin patching streets that had been snow-covered for over three months. Later in the spring the sewer drops were given the usual cleaning and a few sections of sidewalk built.

With the exception of about four weeks in July and August gravelling was carried on in all sections of the City from late March to December. Over 13,000 cubic yards of gravel was hauled to about twenty locations and during the tarring season approximately 2,500 cubic yards of sand were used. On Chestnut Street and Brock Street 500 feet and 1,400 feet of roadway was rebuilt after water or sewer installations and Hickey Street, East Rochester, was repaired following a water main installa-

tion. The England Road was given a light coat of gravel and tarred for the first time for a distance of about 3,000 feet.

In all, about 70,000 gallons of tar was applied as needed in all sections of the City and the usual maintenance and street cleaning operations carried on throughout the year. Over the past few years the cost of street cleaning has increased to a great degree due to the increased area which is being swept and the increasing practice on the part of householders all over the City of piling all manner of litter from yards and gardens at the side of the street at all seasons for collection.

The demands of other more urgent work prevented all but a small amount of brush cutting in the rural sections, but as had been done for several years previously, many miles of roadside were sprayed with brush killer. This program has eliminated roadside brush in many sections and has resulted in considerable improvement in all areas where it has been used.

During the year three trucks were bought to replace some of the older units that were not dependable or economical to keep. Two of these units were for the Highway and one for the Water Division. Eight new plows were bought and for the first time the Water Division trucks were plow-equipped. A new grader was also bought as well as a snow loader and as a result the City is better equipped for plowing and removing snow than ever before. The purchase of this new equipment should result in a saving on repairs in the coming year although both the power shovel and the backhoe are in need of repairs which will entail heavy expense.

It is the recommendation of the Commissioner that serious consideration be given in the near future to the replacement of the rubbish truck and, also, the two old compressors. One modern unit would satisfactorily replace these compressors which are both over twenty years old.

The Water and Sewer Divisions' largest project was the construction of 3,200 feet of 10-inch water main on Highland Street, East Rochester. A number of short extensions of both sewer and water mains were made which are listed elsewhere in this report. Late in the fall work was started on the siphon and sewer extension on Rochester Hill Road.

Storm Sewers were built on Furbush and Logan Streets to eliminate bad drainage conditions in these areas. An outlet was constructed on upper Wakefield Street which should prevent the flooding of the street in the vicinity of the City Hall during cloudbursts as has happened in the past.

The Sewer Cleaning Machine purchased in 1951 was used extensively during the early part of the year and greatly improved flows were noted in the mains cleaned. In all, approximately 17,500 feet of mains were cleaned.

New water services were installed in sixty-two locations and twenty-five services were relaid which is about the annual average.

New sewer connections were made in thirty-nine locations.

During the early part of the year the State Department of Health increased the frequency of water tests so that at the present time samplings are made at two locations weekly. All tests show the water to be of uniformly good quality for domestic and industrial use.

Although it was necessary to curtail sprinkling for a short time during the past summer, water was in good supply during the entire year, and our difficulty was in getting the water to the City as fast as it was needed during periods of heavy demand. It is hoped that a new line may be laid in the near future which will bring water to the City to cover peak demands of the present and next 30 to 50 years.

I wish to convey my thanks to the Mayor and City Council, the Public Works Committee and, also, to the heads of the other City Departments for their cooperation during the past year. As always, the employees of the Department, also, deserve thanks for their loyalty in the performance of their regular work and in the performance of emergency work as the necessity arose.

REPORT OF CITY SOLICITOR

To the Mayor and City Council of the City of Rochester:

I herewith submit my report as City Solicitor for 1952.

The City's suit against the Boston and Maine Railroad for damages and expenses incurred by the City in fighting the fire of October, 1947, which resulted in a jury disagreement and mistrial at the 1951 September Term at the Strafford County Superior Court, has been appealed to the New Hampshire Supreme Court by counsel for the Railroad. This Supreme Court Appeal is still pending. In connection with this suit, Cooper, Hall & Cooper were retained as special counsel for the City by the City Council in 1947, and on December 31, 1952, said special counsel were paid as follows:

On account of legal services rendered	\$2,000.00
To disbursements as follows:	
Sheriff's fee	\$3.20
Depositions, photographs and pictures and expenses re: witnesses	
Total charges \$531.38, of which City's one-fourth share is listed as	132.85
Telephone charges	68.78
Travel	128.00
Disbursements	332.83
Total paid December 31, 1952	\$2,332.83

The above payments on account to special counsel were made with the approval of the Legal Affairs Committee and Claims and Accounts Committee pursuant to an estimated 1952 budget of \$2,500.00 passed by the 1952 City Council for this purpose.

All other legal questions which have arisen during the year have been disposed of without litigation.

I wish to express my appreciation for the continuing cooperation given me by the Mayor and gentlemen of the City Council and all other city officials during the past year.

Respectfully submitted,

PAUL B. URION,
City Solicitor.

OF SPECIAL INTEREST

With continued competition from television and paperbinds, we are happy to report the following increases in the use of the library:

Circulation increase at main library	355
Increase in reference room students	443
Increase in adult readers	741
Increase in juvenile readers	221

East Rochester Grammar School project continued this year with a total circulation of 6,107.

On March first the adult stack rooms were opened to the public for the first time in the history of the library.

On March third the Children's Room, redecorated and newly furnished, was reopened.

Teen-age department enlarged—all shelves on the south wall of the main reading room now devoted to books suitable for that age group.

GIFTS

410 volumes (including 37 paper-binds), 277 pamphlets, 320 periodicals, 67 subscriptions, 5 scrapbooks, 10,000 book-marks, plants, flowers and printing.

LOOKING TO 1953

We hope to:

Start a Library Club for young people.

Microfilm those files of the Rochester Courier which are in the poorest condition.

Devise a means of further enlarging the teen-age department.

HARRY S. JOHNSON,
Treasurer.

I have examined the receipts and expenditures of the financial reports of the librarian, E. Velma Foss, and the treasurer, Harry S. Johnson. I find them correctly cast and properly vouched.

J. STACY TRIPP,
Secretary of the Board of Trustees.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Rochester School Board:

This is my fourth report and the sixty-first in the series of annual reports submitted by school superintendents in Rochester, N. H.

The following statements and statistics explain the condition of the schools, the work of the past year, and include recommendations for the ensuing year.

The annual reports of the Spaulding High School Principal, the School Nurse, and the Spaulding High School Librarian are submitted herewith along with financial statements of the School Department, School Lunch Program and the Student Activity Association.

CHANGES IN SCHOOL PERSONNEL

The following teachers terminated their services in the Rochester schools at the close of the school year in June or during the summer vacation, 1952: Florence E. Dame, Ernest L. Davis, Ruth P. Ladd, Edward L. Tucker, Junior High School; Gertrude McClintock, English; Day Spaulding, Art; Harold Thompson, Social Science; Marion Underhill, Librarian; Regina Valley, French; Louise Sawyer, Maple Street School, Grade Four.

Virginia L. Hawkenen resigned in April and was replaced by Beatrice Cornish.

New teachers employed at the beginning of the school year in September 1952 include: Edwin A. Blackey, Junior High English; Erma A. Jackson, Junior High Social Studies and English; Muriel Kiley, Junior High Social Studies and Math.; Mildred M. Flynn, English; M. Annette Beane, Art; Augustine DiRubio, Social Studies, Assistant Football Coach; Rosamon Cole, Librarian; Beatrice N. Cornish, French and English; Ruth F. Watson, Maple Street School, Grade Four; Janet Berry, Maple Street School, Grade One; Albert N. Carbonneau, Director of Physical Education in the elementary schools.

Mr. Walter May was employed as a substitute teacher in Junior High Science until replaced by William T. Cloon in October 1952.

Mrs. Arline S. Dow became Secretary to the Principal of the High School in August 1952 replacing Mrs. Bernice Peters who resigned at the close of the school year in June.

ORGANIZATION AND ENROLLMENTS

A study of the enrollments by schools and grades and the comparative school census reports made in September 1951 and 1952 indicate many problems (see Tables A, B, and C).

Congestion in the several schools has been relieved in part by the policy of redistricting established by the School Board in 1949, the growth of the private schools in Rochester, and a decrease in the number of tuition pupils.

A comparison of the Rochester school census reports for 1951 and 1952 shows an increase of 106 resident pupils in the public schools and 47 in the private schools.

The number of children in each of the first ten age groups increased last year. The first age group, those less than one year old, increased by only five, while the total number of children under sixteen showed an increase of 203. The number of children in Rochester has increased significantly due in part to the birth rate and also to the number of new families residing in Rochester.

The total resident school population in Rochester ten years hence merits careful consideration.

There are eight elementary classrooms with excessive enrollments of more than thirty-five pupils as of December 31, 1952.

TRANSPORTATION

Children living more than a reasonable walking distance from an elementary school are transported on a school bus. The present policy established several years ago designates a walking distance of one and one-half miles to school and one mile to an established bus route. Younger children residing in specified areas along hazardous highways with no sidewalks have also been transported. Other children, including high school pupils, have been permitted to ride whenever space on the bus permits and at the discretion of the school bus driver.

The ever increasing enrollments in the lower grades in the public and private schools create a serious transportation problem. The need for additional reassignment of pupils to equalize the teaching loads in the Rochester schools will further complicate this problem.

A complete survey of transportation to the Rochester schools is shown in Table D, Transportation Routes; Table E, Number of Pupils Transported by Grades and Schools; Table F, Number of Pupils Transported by Routes and Grades; Table G, Number of Pupils Transported by Routes and Distances.

MAINTENANCE OF SCHOOL PROPERTY

The need for improvements in the Rochester elementary school buildings and equipment has been great in recent years.

Four of the five buildings are old, and therefore difficult and expensive to recondition. Several significant improvements have been made: Modern fluorescent light fixtures were installed in the six classrooms at East Rochester School during the last summer vacation thus giving the five elementary schools adequate artificial lighting. Two classroom floors and four ceilings have been replaced during the past year. The classroom walls and ceilings at the Maple Street School were redecorated with fresh paint as a part of the summer maintenance work done by the school janitors. This program of color conditioning in schools improves the light, cheerfulness, and appearance of the entire school plant and should be undertaken in the other four elementary schools. The replacement of obsolete drinking fountains, the installation of sanitary soap dispensers and adequate lighting in the several basement toilets have also remedied undesirable situations. The classroom and hallway floors have been cleaned and resurfaced in most cases with penetrating seal. This work has been done by the school janitors and adds much to the cleanliness of the buildings. All flag poles, except at the Allen School, have been painted with a primer and finish coat during the year 1952. With the exception of the East Rochester School the roofs on all school buildings have been given careful attention and appear to be in good condition. Sections of the roof at the East Rochester School should be resurfaced next summer. In spite of constant patching seasonal storms bring about many leaks in the roofs of our elementary school buildings.

Outdoor gymnasiums should be provided on the playgrounds at the several elementary schools. Such hard surfaced areas are needed for games of skill that are a part of the physical education work, and for the recreational activities that are invaluable to growing boys and girls. The elementary playgrounds have been greatly improved during the last two years by additional grading, fill, and the installation of new equipment. The work on the Gonic School playground, completed since the beginning of the school year in September, is a good example of what can be done, and will undoubtedly be an incentive for better playground facilities throughout the city.

Rochester is fortunate indeed to be the owner of Spaulding High School. It is one of the finest school buildings in this part of the country and should be well maintained for future generations. With this thought in mind the building must be kept in good repair. Improvements must be made annually in order to achieve this purpose. The window sash and frames at Spaulding High School were painted during the summer months. The library, gymnasium, and cafeteria have also been redecorated with fresh paint during the last year. The thermostats, ventilating units, auxiliary power plant and stage switchboard were overhauled and minor repairs made during the recent Christmas

vacation. This expensive equipment is now in good working order and should be carefully maintained in the years to come because of its replacement cost.

The janitorial staff in the elementary schools remains the same as last year. Arthur Palmer, having retired as janitor at Spaulding High School as of July 1, 1952, was replaced by Raymond Seavey at the beginning of the new school year in September.

CURRICULUM AND INSTRUCTION

The success of any plan for curriculum improvement in a school system requires cooperation from many sources. The entire community, school officials, teaching staff, lay citizens, parents, and pupils should participate with a sympathetic understanding that facilitates a unity of purpose. Curriculum improvement is based on the conviction that change is desirable if it cultivates better achievement. It requires research and constant evaluation with consideration for available resources and materials. Such curriculum revision conforms with the evolving philosophy of the school and is a gradual process. Curriculum improvement expresses itself in the classroom as the teacher grows in knowledge and concepts that help her to teach more effectively. The sequence and choice of learning experiences in a course of study is important to the extent that desirable pupil growth results. As teachers modify their classroom practices after learning to observe and interpret child behavior they become concerned with cumulative records, tests, health programs, guidance, physical and emotional needs, and the adjustment of the curriculum to pupil needs. Such improvements necessitate additional materials.

Teachers in the Rochester schools are undertaking advanced professional study in courses that improve instruction. Eleven high school and twenty-five elementary teachers have attended summer school or enrolled in extension courses during the last year.

Guidance tests have been administered to pupils in Grades 9 and 11 at Spaulding High School and achievement tests to all pupils in Grades 1 to 12. These tests were administered and scored by the University of New Hampshire under the direction of Mr. Paul McIntire, Director of Guidance and Counseling.

The tests show that the graduating class of 1952 at Spaulding High School attained a satisfactory rating on the basis of nationwide achievement norms.

The survey showed that all pupils in the lower grades exceeded the established national norms. The tests indicated the need for additional emphasis on reading and quantitative thinking in the upper grades. These two constructive conclusions offer a challenge to teachers and pupils that is being met with effective effort.

Pupils should be encouraged by parents to read more extensively at home. It appears that many boys and girls do not take enough time for reading or other specific activity that involves meditation or abstract thinking. It is regrettable that the availability of commercial amusements deter our youngsters from seeking the universal truths found in the great books of the world.

I believe that the present testing program should be continued in the Rochester schools in order that the ability, growth, and problems of the individual child may be better understood by teachers and parents.

A physical education program has been undertaken as an integral part of the curriculum in the five elementary schools. At the beginning of the school year in September 1952 an activity program adapted to the age characteristics of each grade was established under the able leadership of Mr. Albert Carbonneau. The work attempts to develop physical fitness, neuro-muscular skills, social adjustment, mental and emotional fitness, and valuable recreational interests for each child. This work appears to be a valuable contribution to the entire school program.

FINANCES

The total per capita cost of education in Rochester for the year ending in June 1952 amounted to \$214.77 which was \$64.03 below the state average. The tax rate for the City of Rochester is comparatively high due in part to the low per capita equalized valuation which ranks tenth among the twelve cities of New Hampshire. The increased enrollments, inflated costs, and limited assessed valuation of the city make low tax rates impossible over a period of years unless school property is neglected or desirable programs curtailed.

Salaries comprise the major part of the school budget. The per capita cost of teachers' salaries in Rochester was \$16.32 below the average for the other New Hampshire cities for the year ending in June 1952. The average annual salary for elementary teachers in Rochester is \$205 below the average salary paid elementary teachers in other New Hampshire cities during the school year 1952-53.

ACKNOWLEDGMENTS

The Parent-Teacher Organizations in the several schools have done much to help the school program by conducting open meetings devoted to parent education and home-school cooperation. The more people who understand the needs of children, and the best means of meeting them, the better will be our homes, our schools and communities. The numerous projects undertaken by P. T. A. groups in Rochester have financed many improvements in our schools during recent years.

The support of the various civic clubs in Rochester is a valuable contribution to the welfare of youth in our schools. Many underprivileged children are helped along the way by funds established for this purpose.

The numerous scholarships for worthy high school graduates are an inspiration to those students who need assistance and have the desire to attend college.

SCHOOL CALENDAR, SEPTEMBER 1953—JUNE 1954

1. September 9 to December 23	16 weeks	71 school days
2. January 4 to February 19	7 weeks	35 school days
3. March 1 to April 23	8 weeks	40 school days
4. May 3 to June 18	7 weeks	34 school days
	<hr/> 38 weeks	<hr/> 180 school days

"NO SCHOOL" DAYS

September	7	Labor Day
September	8	Teachers' Meeting

September	21	Children's Day	
October	12	Columbus Day	
November	11	Armistice Day	
November	26-27	Thanksgiving	Recess
May	31	Memorial Day	

Regulations of the State Board of Education requiring sessions on 180 school days make it advisable that the Rochester Public Schools shall not close because of inclement weather. School days lost in case of extreme emergencies will be made up by extending the school year in June 1954.

Parents are expected to show good judgment concerning school attendance whenever unusual weather conditions may affect the health or safety of their children.

NO SCHOOL SIGNAL

Twenty-two upon the fire alarm will be the signal for no school. When sounded at 7:05 and 7:45 all schools will be closed for the day. When sounded at 11:15 pupils will be dismissed at the usual morning closing hour for the rest of the day. The same signals will be sounded at Gonic and East Rochester. Notification will also be broadcast from Station WWNH and Station WHEB at 7:15 and 7:45.

CONCLUSION

American citizenship is a priceless heritage attained for us at great sacrifice. Its privileges are ours to enjoy as long as we assume the duties and responsibilities that comprise it. Many adults are inclined to take freedom and individual opportunities for granted and overlook their obligations to society. There can be no freedom without related responsibilities and sacrifice. We must continue to recognize this basic principle as we strive to obtain the American ideal of liberty, justice, and opportunity for all.

I wish to thank you as members of the School Board for your cooperation and efforts in maintaining good schools in Rochester. School Board members are potentially the most influential morale builders in a community. Through your work and policies the basic principles of democracy remain inherent in our schools.

The cooperation of citizens and school personnel in achieving these purposes is also appreciated.

Respectfully submitted,

JOHN H. FRYE,
Superintendent of Schools

REPORT OF PRINCIPAL OF HIGH SCHOOL

January 12, 1953

Mr. John Frye
Superintendent of Schools
Rochester, New Hampshire

Dear Mr. Frye:

I hereby submit my report as Principal of Spaulding High School.

ENROLLMENT

	7	8	9	10	11	12	P.G.	Tls.
September 1951	153	154	166	136	155	125	3	892
September 1952	141	154	200	149	126	141	1	912

This year it is our senior high school which increased by thirty-two over last year while our junior high is less by twelve, a net gain of twenty. This increase was largely accounted for in the freshman class where most of our tuition pupils enroll.

ADMINISTRATION AND GUIDANCE

We have been using the results of the Iowa Achievement tests in our guidance work. Each pupil has an opportunity to learn about his achievement in relation to his own ability and in comparison with national norms. These tests are proving very valuable and we hope they will be continued.

We have held a series of teachers' meetings with Mr. Paul McIntire of the University of New Hampshire as our leader. Much of the time has been spent discussing the tests, their validity, reliability, uses, and implications for our work in Spaulding High School. Recommendations will be forthcoming at the conclusion of the series of meetings.

Plans are under way for testing Freshmen and Juniors with Interest tests, Aptitude tests and Mental Maturity tests. They are administered by staff members of the University of New Hampshire.

After scoring and tabulating the results are available to our teachers and guidance workers in connection with our counseling work.

We are endeavoring to maintain a high scholastic standing in Spaulding and are insisting that those going on to college maintain a "B" or certificate grade. In order to do this we give pupils warnings every six weeks if their work is not up to "B" average and they are required to report for extra help each day, the eighth period. Many pupils can and do maintain this high standard without the extra help or urging.

We need to change our Social Science curriculum in order to include a course of vital importance in our American democracy. We recommend that Problems of Democracy be taught in the senior year as a required subject and that U. S. History be changed to the junior year. If this is done we recommend that Modern European History be dropped and World History expanded to cover this period; that Economics, Sociology and Commercial Law be dropped and as many of their essential elements as possible be included in the Problems of Democracy course.

In order to make this change, U. S. History will have to be taught to both Juniors and Seniors next year and the Problems of Democracy course added in 1954. These changes can be made with our present staff.

Other departments need no changing at this time.

CO-CURRICULAR ACTIVITIES

Co-Curricular activities generally called extra-curricular activities are an important part of the life of any school. We are fortunate to have the following activities and teacher advisers:

Mr. Donald McDuffee	Radio Club
Mr. Arthur Cutter	Future Farmers of America
Mr. Theodore Ayer	Boxing Club
Miss Rosamon Cole	Library Staff
Mr. James Cook	Instrumental Music
Mrs. Norine Spelman	Vocal Music
Mrs. Martha Grierson	{ Senior Tri-Hi-Y Club

Mr. Edward Herman: Director of Athletics, Coach of Varsity Football and Varsity Baseball.

Mr. George Taylor: Director of Physical Education, Assistant Coach Varsity Football, Coach of Varsity Basketball and Junior High Basketball.

Mr. Augustine DiRubio: Assistant Coach Varsity Football.

Mr. Albert Carbonneau: Coach Junior Varsity Football and Basketball.

Mr. Theodore Lylis: Coach of Varsity Track.

Mr. Benjamin Mooney: Assistant Coach of Varsity Track.

SEASONS' RECORDS

Varsity Football	Won 3 Lost 6
Varsity Basketball	Won 9 Lost 10
Varsity Baseball	Won 6 Lost 4

Varsity Track—Our team placed second in the State Meet at the University of New Hampshire. We won five first places. We also competed in the Kiwanis Meet at Laconia; Rotary Meet at Keene; Clipper Relays at Portsmouth; Triangular Meet at Dover; and Southeastern Meet (Lions) at Rochester.

Through our formal athletic schedules and our intramural program we try to provide opportunities for all who wish to participate in each sport during the season. We have had intramural programs in touch football, basketball and baseball.

The Physical Education department held a demonstration in the spring in conjunction with a P. T. A. Bazaar. Thus the public was able to see the various activities carried on in our Physical Education classes.

STUDENT ACTIVITY ASSOCIATION

The student activity association continues to be the focus in which is centered all student work other than classes. This association approves bills, awards, and acts as a clearing house for student opinion.

Another student participation group is being formed to share the load and increase the number of pupils taking an active part in running school affairs.

A financial statement of the Student Activity Association is appended.

CAFETERIA

Mrs. Cassie Richardson, school lunch supervisor, and her assistants, continue the excellently planned and prepared lunches and the price has remained at twenty-five cents. Practically all other schools of our size charge more for the same type lunch. We are fortunate that Mrs. Richardson has been able to maintain such a fine program at the same price.

GRADUATES OF THE CLASS OF 1952

Our graduating class of 1952 numbered 121. Of this number, twenty-two are attending four-year colleges as follows:

- 13 University of New Hampshire
- 1 Simmons
- 1 Plymouth Teachers College
- 1 Notre Dame
- 1 Rutgers University
- 1 Gordon College
- 1 Johnson Theological Seminary
- 1 Boston University
- 2 Keene Teachers College

Others are attending post secondary schools as follows:

- 1 College of Pharmacy
- 1 Bryant and Stratton
- 3 Technical Institute, Portsmouth
- 1 Radio Technical School
- 2 McIntosh Business College
- 1 Becker Junior College
- 1 Wentworth Institute
- 1 Hebron Academy
- 1 North Shore Baby Hospital
- 2 Concord Memorial Hospital
- 2 Notre Dame Hospital

Twenty-three have joined the Armed Services: 2 WAAFS; 9 Navy; 11 Air Force; 1 WACS.

Twenty are working in local factories and garages. Fourteen are in various business offices in the city; two are telephone operators; eleven of the class are married; eight are working in stores and six are at home.

CONCLUSION

We are grateful to the superintendent and school board for their help and cooperation.

It is certainly a pleasure to work in such congenial surroundings and with such an excellent staff.

Respectfully yours,

JOHN M. COTTON,
Principal.

REMARKS:

Circulation improves each year. Our school population fluctuates a little, but a conservative estimate would claim at least 13 books per pupil per year.

Attendance has dropped a little this year, probably not more than might be accounted for by the fact that for most of the school year the library was used as a study hall two periods a week. Last year there were no such periods. There were also a number of days when the library was used as a study hall because of a testing program in the regular study room.

Books cataloged exceed accessions because a large number of reference sets that were previously only shelf-listed have now been fully cataloged. In that connection I should like to mention Richard Sanborn, a member of the Library Staff, who has given far more than the time required for service in the library. He learned to complete sets of catalog cards after the main entry card had been checked, and proved a most efficient assistant in much of the clerical work to be done.

In withdrawing missing books from the record, we have followed the practice of those school libraries who note on the shelf list card that a given book is missing at the annual inventory, but do not withdraw it until it has been missing three years. So many missing books drift back to the library later that the records are less confused if final action is delayed. It is our practice to replace with another copy any book that appears to be in demand, for we can always use more than one copy of a wanted book.

Our Library Staff has developed especially well this past year. All twenty of our members qualified for certificates in June. To earn a certificate a member must have at least a year of service and have passed all tests for at least two degrees of training. Service and training beyond this stage is also recognized in the form of the certificate. One of the graduates had five degrees of training, and two members have four. On several days when the librarian was absent, it was interesting to note how well the group organized to take care of the library routines and how completely they covered the situation.

The Verticle File is being discovered by our students, just as the magazine files were a few years ago. The present equipment no longer can house all the material we have to put in it, but we are hoping for an addition to it that will expand its usefulness.

In leaving the Spaulding High School Library I would wish to thank most warmly all the friends whose help and cooperation made it possible to give our pupils as good a library as I knew how to give.

Respectfully submitted,

MARION D. UNDERHILL,
Librarian.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

I herewith submit my report as School Nurse for the year of 1952.

This report summarizes my activities in the health program of our schools. Physical inspections, vision tests, and hair and skin inspections were made on all grade school pupils in the public and parochial schools. Emergency calls were answered in all schools. Weekly visits were made to the schools whenever time permitted. Frequent visits to the schools and conferences with the teachers make it possible to keep in close touch with the health problems of the children. Pupils of grades one and two had an individual hearing test made with the audiometer. Pupils of grades three through six were tested for a hearing loss with a group audiometer which was loaned by the State Department of Education. A recheck on any defects found with the group audiometer was made with the individual testing machine. One thousand seventy-six pupils were tested with the group audiometer. One hundred and seventy-one retests were made. The work at Spaulding High School consisted of physical inspections and vision tests on the pupils of three grades. Due to the large enrollment at Spaulding it is necessary to limit the screening tests made by me to alternate years, that is, grades eight, ten and twelve.

The School Physician, Dr. Albert Barcomb, examined, or provided the personnel to examine, six hundred and seventy-five pupils. These examinations were made on the pupils of grades one, four, seven, and ten of the public schools. This plan provides an examination for each child four times during his school life. This is a cursory examination but numerous defects are detected, which, when corrected, make a child a better student and citizen. Considerable time was consumed in notifying parents about the physical defects of children and in advising and assisting with the corrections. Dr. Albert Barcomb has resigned as school physician. I feel that the citizens of Rochester are indebted to Dr. Barcomb for the untiring service he has rendered the schools in the past years.

Drs. Wilfrid Roy and Roland Cullen have continued their work with the Rochester Dental Clinic during 1952. A selected group of children from the public and parochial schools have been treated. This work is very valuable and these dentists show a fine civic spirit in allotting their time to it.

On October 10, the Mobile X-ray Unit visited Rochester and the pupils of Spaulding and Holy Rosary High Schools were given an opportunity to have a chest x-ray without cost. Five hundred and forty-six students were x-rayed. There were no reactors found in the survey. This project is sponsored by the New Hampshire Board of Health and it is planned to x-ray a group of high school students each year.

The purpose of the spring pre-school conferences held each year is to acquaint the child with school life and to find handicaps which can be corrected or treated before school entrance in the fall. This provides the child a fairer chance of success in his first school year. The growing interest in the pre-school conferences can be verified by the increase in attendance each year. One hundred and thirty-three children attended the conferences held in May 1952. The children were examined by a doctor and routine inspections and screening tests were made by me, as school nurse. I would like to recommend that the examination by the physician be scheduled for a time other than the day of the conference. The day, as it has been conducted in the past, is too crowded and tiring to a child.

Examination and treatment of orthopedic defects are available for any Rochester child at the Orthopedic Diagnostic Clinic which is held bi-monthly at the Frisbie Memorial Hospital. Drs. Ezra Jones, David Webster, and Ursula Saunders are the attending physicians at the clinic. The clinic is under the direction of the Crippled Children's Services of the New Hampshire State Board of Health. An Orthopedic Physiotherapy Clinic is held at the Spaulding High School each month as a follow-up to the diagnostic clinic.

Due to the increasing enrollment over the past ten years in our schools, and to the addition of time consuming health services, such as, physical examinations, clinics, and follow-up work, it is difficult to carry on an ideal health program. A good health service program can be carried by one nurse if the pupil enrollment is in the vicinity of one thousand. The pupil enrollment of all of the Rochester schools is about two thousand six hundred. I would like to suggest that serious consideration be given to employing another school nurse in the near future so that the children of Rochester can be given more adequate health supervision.

I would like to extend my thanks to the various organizations which have financed the cost of adequate clothing, medical care, vision corrections, etc., for the underprivileged children of our schools. The Red Cross Motor Corps deserves mention for its excellent cooperation in transporting children to local clinics, Boston, Manchester, and Concord.

I want, Mr. Frye, to thank you and the teachers for the cooperation I have received during the year of 1952.

Respectfully submitted,

NORA C. SCAHILL, R. N.,
School Nurse.

INAUGURAL ADDRESS

By John Shaw, Mayor

January 7, 1953

Gentlemen of the City Council:

Our program for the coming year can be stated very simply. It will be one of economy and retrenchment. It is rather strange but it is probably true that in municipal affairs a simple policy such as this is one of the most difficult to fulfill.

The first objective of this policy is, of course, to bring about a substantial reduction in the present tax rate and this must be done without resorting to the time old trick of a general increase in valuations.

The second objective is the adoption of a pay-as-you-go policy and a reduction of the City's funded debt.

Speaking in this sort of language and with the accent on tax rate, debt reduction, and pay-as-you-go policy, you can readily see that "finances" and "financial ways" will be the problems that will plague us the most during the coming year.

As of last year we are keyed very nearly to a million dollar budget, the round figure being \$971,000.00 with a tax rate of \$50.20 per thousand.

Our funded debt, as of December 31st last, is \$364,000. Broken down into divisions and also in round figures we owe on notes the following: Water \$110,000; Sewers \$43,000; Municipal Garage \$12,000; Ward Four Ward House \$3,000; Highways \$35,000; Isinglass Bridge \$13,000; Gonic Bridge \$7,500; and a final division called "General Equipment" which includes fire equipment, trucks, plows, grader, snow-loaders, etc., much of which we have recently purchased, is \$137,000.

The payment that will have to go into this year's budget on this item alone is \$32,950. This one figure for equipment only will be responsible for very nearly the equivalent of \$2.00 per thousand in our coming tax rate.

In making up our budget for the coming year we are compelled to include the debt charges as fixed; the County tax over which we have no control; and salary and wage items that we cannot touch. Consequently, any cuts or savings must come from careful purchasing from the lowest bidder, elimination of unnecessary items, and economical and efficient operation in every department.

How long we have to maintain such a stringent program as this depends upon our ability to get new taxing property. This brings up a subject that I would like to talk about.

Rochester is classified as an industrial City and in this type of City the theory is that a given amount of industry supports a given amount of families and that these families in turn produce a given amount of commercial volume. Industry, as you will notice, is the base or foundation of our municipal structure. Also in municipal taxing as in business there are heavy profit and low profit items meaning that you do not give back in cost of services to the heavy profit items as much as you give back to the low profit ones. For instance: industry is called a heavy profit item and small housing a low profit one. When these two are in the right proportion in a community that community's economy is in balance.

For a good number of years our economy, according to this theory, was in balance. Then we lost an industry and part of another. Our economy went out of balance and our trouble started. We raised our taxes and kept raising them to make up for our misproportion of low profit items.

Other communities and especially those that had a good proportion of industry for a base or a foundation were not compelled to raise their taxes as much as we were forced to do to meet the country-wide and general increase in prices and costs.

Now this was the time to have had a program of economy and curtailment but instead we spent and expanded and went into debt.

From this we can draw these conclusions: that to bring our municipal economy into balance and to distribute our tax burden we need new industry, that in order to bring new industry into Rochester and keep those we now have content and satisfied, we must have a lower tax rate. That until such times as we attain this position we shall have to economize and curtail.

This must be and is our program.

We all know that Rochester is an especially fine community. We have many fine churches, schools and institutions and we would like to be a happy and prosperous people. It is a privilege to live here but we must so run our municipal affairs that we are not asked to pay too much for this privilege.

EXAUGURAL ADDRESS

By Mayor C. Wesley Lyons

Gentlemen of the Council:

During my years as your Mayor I have derived a great amount of enjoyment and pleasure, and it has been an inspiration to have worked with you. Some of these years were war years, and we had our problems, but working together we accomplished what we had planned to do. We celebrated a great victory together, at the same time realizing that a price had been paid as many of our fine boys did not return, having made the supreme sacrifice.

1947 was the year of the great forest fires in New Hampshire and Maine. These were trying days for us all. The Councilmen and our citizens worked together and our sister towns and cities came to our aid.

We have had seven interesting years and during these years with your help we have accomplished a great deal. Undoubtedly I have made some errors but hope they will not stay in your mind, for how easy it is now to think back and see a better way some things should have been done.

Altogether I have had seven years as your Mayor and three years as your Councilman. Working with you has been a pleasure, a privilege and an education in itself. I shall look back over these years with a fond remembrance.

To our citizens, I will say that the City Government could not have functioned properly without your support. Your Councilmen have put their heart and soul into conducting the affairs of our City and have been most faithful. I congratulate you on your selection of the Council.

I now congratulate your incoming Mayor, John Shaw, and he has before him a great experience. He will find that the pleasant things are far greater than the unpleasant. I extend to him my best wishes for the year ahead.

I take this opportunity to thank the Councilmen for their courtesies to me and for the harmony that existed during these years together, and will look back with fond remembrance and with enjoyment. May God bless you.

C. WESLEY LYONS.
